

Latest climate change projections for NZ

Andrew Tait, Abha Sood, Brett Mullan, Stephen Stuart - NIWA, Wellington
and
Greg Bodeker, Stefanie Kremser, Jared Lewis - Bodeker Scientific, Alexandra

Research Aim 1: Improved Climate Projections

- Update and improve processes to generate regional-scale projections of New Zealand climate trends & variability to 2100
- Maximise the utility and relevance of update climate projections for impact modelling
- Improved climate projections will be packaged into formats relevant for modelling (Research Aims 2 & 3), enhanced decision-making (Research Aim 4), and scenario development (Research Aim 5)

Updated Climate Model Data

*Domain of the NIWA RCM
(spatial resolution 28km)*

More emissions →

- AR5: 6 GCMs x 4 RCPs

6 AR5 GCMs		4 RCPs			
BCC-CSM1.1	CESM1-CAM5	2.6	4.5	6.0	8.5
GFDL-CM3	GISS-EL-R				
HadGEM2-ES	NorESM1-M				

- 7 Variables

- Maximum Air Temperature
- Minimum Air Temperature
- Total Precipitation
- Relative Humidity
- Solar Radiation
- Wind Speed
- Relative Humidity

- RCM data downscaled to ~5km spatial grid (VCSN)

- Data at daily, monthly and annual time steps, 1971-2120

Updated MfE Guidance Document

<http://www.mfe.govt.nz/publications/climate-change/climate-change-projections-new-zealand>

Average change in temperature (°C) by 2090 under RCP8.5

Updated MfE Guidance Document

<http://www.mfe.govt.nz/publications/climate-change/climate-change-projections-new-zealand>

Annual average change in rainfall (%) by 2090 under RCP8.5

Updated MfE Guidance Document

change/climate-change-
projections-new-zealand](http://www.mfe.govt.nz/publications/climate-change/climate-change-projections-new-zealand)

BoP Region highlights (2090, RCP8.5)

- Increase in mean temperature (°C): Summer 3.3; Autumn 3.2; Winter 3.1; Spring 2.8
- Change in mean precipitation at Tauranga (%): Summer +7; Autumn +3; Winter -1; Spring -11
- Increase in “hot days” (Tmax ≥ 25°C): Present 16.3 days/yr; Future 75.6 days/yr
- Decrease in “cold nights” (Tmin ≤ 0°C): Present 17.3 nights/yr; Future 2.3 nights/yr
- “Dry days” increase by 5-10 days/yr
- 99th percentile rainfall amount increase by 5-10%
- 99th percentile wind speed decrease by 0-5%
- Increase in PED (amount of water needed for irrigation) by 50-100mm/yr (25-35%)
